

SANDEEP S LOPEZ

AZURE DATA ENGINEER

Bengaluru, India | Phone: +91-7559916461 | Email: sandeepslopez@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Azure Data Engineer with 5+ years of experience in designing, developing, and optimizing Azure-based data solutions, ETL/ELT pipelines, and cloud data platforms. Proficient in Azure Data Factory (ADF), Azure Databricks, Azure Synapse Analytics, Azure Data Lake Storage (ADLS), Apache Airflow, SQL, and Python. Experienced in building scalable data pipelines, data integration, workflow automation, performance optimization, and supporting business intelligence and analytics solutions.

CORE SKILLS

Technical Skills: Python, SQL, PySpark, Data Modeling, ETL/ELT, Data Warehousing, Lakehouse Architecture, Delta Lake, Data Quality Frameworks

Tools: Azure Databricks, Azure Data Factory, Apache Airflow, Power BI, GitHub Actions, Docker, Azure DevOps, Slack bots, MS SQL Server, Jira

Domain Skills: Data Engineering, ML Ops, Orchestration, Enterprise-scale pipeline design, Batch and streaming data processing, Cost optimization, Query tuning, Execution plan analysis, Resource optimization, Job monitoring

AI & Automation: OpenAI APIs, Agentic AI, Slack Bot Development, LLM Integration, Copilot Integration

Soft Skills: Cross-team coordination, Stakeholder communication, Problem solving, Analytical thinking, Collaboration, Audit readiness, Project management, Team leadership, Effective communication

WORK EXPERIENCE

DATA & ML OPS ENGINEER

Adobe | Karnataka, India | 07/2025 – Present

- Designed, developed, and maintained enterprise-scale ETL/ELT pipelines using Apache Airflow, Azure Databricks, and Python.
 - Built and optimized Apache Airflow DAGs, reducing job execution time by approximately 50% and improving workflow reliability.
 - Optimized Azure Databricks workloads and implemented cost optimization strategies, delivering approximately \$120K/month in infrastructure cost savings while improving platform performance and operational efficiency.
 - Developed DagMate, a Slack-based DataOps platform enabling self-service pipeline operations, workflow orchestration, monitoring, and alert management, reducing manual operational effort by 70%.
 - Built AI-powered Slack assistants integrated with Databricks and enterprise datasets, enabling natural language data discovery, dataset insights, and operational troubleshooting.
 - Led SharePoint-to-Databricks ingestion modernization by developing a Python-based ingestion framework, replacing legacy workflows and improving scalability and maintainability.
 - Implemented CI/CD pipelines using GitHub Actions to automate deployments, improve release reliability, and accelerate delivery cycles.
 - Designed observability, monitoring, and alerting solutions across Airflow and Databricks workloads, reducing incident resolution time and improving SLA compliance.
 - Implemented automated data quality validation and reconciliation frameworks to ensure data accuracy, consistency, and reliability across data pipelines.
 - Enabled AI-assisted engineering workflows and automation initiatives, improving developer productivity and reducing manual support effort.
 - Collaborated with data engineers, analysts, and business stakeholders to deliver scalable data solutions supporting enterprise analytics and reporting.
 - Developed an AI-assisted Jira Health Dashboard providing real-time visibility into sprint health, task aging, blocker tracking, and team performance metrics across engineering teams.
-

DATA ENGINEER

KeyValue Software Systems | Kerala, India | 12/2024 – 06/2025

- Implemented Apache Airflow using Docker for local development and workflow orchestration.
- Designed, developed, and optimized complex Airflow DAGs for scalable ETL/ELT data pipelines.
- Built and maintained ETL pipelines on Google Cloud Platform (GCP) using Apache Airflow.
- Automated data workflows and pipeline scheduling to improve reliability and operational efficiency.
- Monitored pipeline execution, troubleshoot failures, and optimized workflow performance.
- Collaborated with cross-functional teams to deliver scalable data engineering solutions.

DATA ENGINEER

Latentview Analytics | Tamil Nadu, India | 08/2021 - 12/2024

- Designed, developed, and maintained scalable ETL/ELT data pipelines using Azure Databricks, Apache Airflow, and SQL.
- Migrated enterprise data pipelines from Hadoop to Azure Databricks, improving performance and scalability.
- Optimized SQL/HQL queries and PySpark jobs to enhance data processing efficiency.
- Automated data workflows, pipeline scheduling, and monitoring to ensure reliable data integration.
- Performed job monitoring, troubleshooting, and root cause analysis to maintain high pipeline availability.
- Received 3 Spot Awards and an R&D Award for outstanding performance and innovation.
- Implemented data validation and quality checks to ensure accurate, reliable, and consistent data across ETL pipelines.

KEY PROJECTS

- | | |
|--|--|
| • DagMate – AI-Powered DataOps Platform
Tech: Python, Apache Airflow, Databricks, Slack API | Tech: GitHub Actions, Power BI, Git, Databricks |
| • Databricks Cost Optimization
Tech: Azure Databricks, PySpark, SQL | • AI-Powered Slack Data Assistant
Tech: Python, Slack API, Databricks, OpenAI APIs |
| • Enterprise Airflow Modernization
Tech: Apache Airflow, Python, Azure Databricks | • Power BI Deployment Automation
Tech: Power BI, GitHub Actions, Azure Data Factory |
| • SharePoint to Databricks Migration
Tech: Python, SharePoint, Azure Databricks | • Hadoop to Azure Databricks Migration
Tech: Azure Databricks, Hadoop, PySpark, SQL |
| • CI/CD Automation for Data & Analytics | |

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

Bir Tikendrajit University | 2017 – 2021

CERTIFICATIONS

- Databricks Certified Data Engineer Associate, Databricks
- Fundamentals of the Databricks Lakehouse Platform, Accreditation
- SQL Certifications (Basic, Intermediate, Advanced), HackerRank
- Python (Basic) Certification, HackerRank
- The Complete SQL Bootcamp, Udemy
- Training Program on Data Engineering, Great Learning

PERSONAL DETAILS

- Passport Number: Y3427674
- Expiry Date: 09/06/2034
- Open to Relocation: UAE
